

# THE FUTURE IS NOW

The 2026 Moonshot Annual Meeting

October 15-17, 2026  
Fairmont Scottsdale Princess,  
Scottsdale, Arizona

Presented by The Leadership Thread, the premier specialist growth organization founded by dental luminary Imtiaz Manji, The Future Is Now – The 2026 Moonshot Annual Meeting is built for specialists who recognize this is a defining moment in dentistry. Not since the dawn of the internet era have we seen technology so rapidly reshape how leaders think, decide, and grow. The pace is accelerating, and with it comes unprecedented potential for those prepared to lead differently. This curated gathering brings together high-performing specialists ready to elevate their leadership, gain strategic clarity, and adopt the intelligent systems required to build what's next. You won't just hear where dentistry is headed. You'll be in the room with the people shaping it.

## Why This Meeting Is Different

### Because the right room changes everything

You'll be surrounded by high-performing practices and leaders who set the standard in their communities. The level of the room elevates your own.

### Because great communities elevate performance

You are joining an existing high-performing network of clinicians that is already growing at an accelerated pace.

### Because leadership shouldn't feel heavy

Frameworks and intelligent tools reduce friction and restore clarity. And create lifestyles in and out of practice

### Because the future is already here

AI, digital integration, and modern leadership systems offer practical advantages for those who use them.

### Because you should leave more confident, not more exhausted

You'll leave clear, energized, and ready to act on your potential.

This is not about attending another event.  
It is about entering the most influential room in interdisciplinary dentistry.
